no image slider of "bubbles" in mobile

all the Plan section would show for space, I only included 2 in comp

Though removing images would shorten it.

For this comp: I have removed the regional filters, prompting users to zoom/swipe to find institutions. IF we keep this concept, then I will need to remove the filter options on the home page.

If we have the ability to filter on the home page - we will need the ability to filter on the actual page.

# INSTITUTIONS

British Columbia possesses a wide variety of post-secondary institutions, consisting of universities, colleges, and institutes. These different types of institutions provide unique educational opportunities to students, whatever your academic interests may be.

using the same mapping interface as BC Transfer Guide, the user can zoom into map areas, tap and then select

- show campuses
- tap into institution page

on mobile we are hiding the regional filter ability
